DETAILED ACTION

The Notice of Abandonment letter dated March 11, 2003 has been withdrawn in view of applicant's submission of a proper reply dated March 17, 2003 to the Office action mailed March 11, 2003.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 8, 10 and 11 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Krainiak et al.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 12 is rejected under 35 U.S.C. 103(a) as being unpatentable over Krainiak et al. in view of Knab et al. Krainiak et al. discloses the claimed invention except for the vanes. Knab et al. teaches that it is known to provide a clean air directing apparatus with vanes as set forth at column 3, lines 55-57 and column 5, lines 35-38. It would have been obvious to one having ordinary skill in the art at the time the invention was

made to provide the upper plenum of Krainiak et al. with vanes, as taught by Knab et al. in order to straighten the air flow.

Claim Rejections - 35 USC § 112

5. Claim 8 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 8 is unclear because claim 8 requires the device to consist of "an emitting means, a receiving means, and a filter unit. However, to the contrary, claim 1 requires the device to subject the placing unit to a jet of air.

Election/Restrictions

6. Claims 2-7 and 9 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 7.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
